ABOUT ME

I am Nicolás, a Business Administration student and soon-to-be graduate in Financial Management. In addition to my business education, I have experience in programming, particularly in languages such as Java, HTML, CSS, JavaScript, and Node.js. My interest in exploring diverse fields has also led me to delve into artificial intelligence. I am adaptable, committed, and always looking for new opportunities to grow and contribute to the success of any team. I am excited to share my experience and be part of innovative projects!

API Development with Spring Boot. 2024

EXPERIENCE

SOFTWARE DEVELOPMENT FOR SMES

Full stack developer. Villa Mercedes, San Luis, Argentina.

- I developed flexible and adaptable software for regional SMEs, customizing each application according to their needs and preferences.
- I implemented electronic billing through AFIP web service integrations.
- I used Amazon RDS to host clients' databases in the cloud, ensuring security and accessibility.
- I continuously refactor code to ensure more robust and efficient applications.
- I developed landing pages and e-commerce platforms for small businesses, providing tailored digital solutions to promote their products and services online.

Some of these SMEs and ventures included: Hidrosolar (Villa Mercedes, San Luis), OUSIA (General Alvear, Mendoza), Mercado Frontera Hermanos (Villa Mercedes, San Luis).
